## Readymix Concrete

Strength Grade	Application Examples
15MPa Readymix	Blinding, general foundations
20MPa Readymix	House slabs, pathways
25MPa Readymix	Light industrial floors, driveways
30MPa Readymix	Reinforced slabs, parking lots
35MPa Readymix	Commercial foundations, structural use
40MPa Readymix	Heavy-duty structural and industrial concrete applications.

## Sand & Crusher Dust

Material	Common Uses
Supersand	Bricklaying, plastering
Washed Crusher Dust	Bedding under pavers, pipe bedding
Primary Sand	Bricklaying, plastering
Unwashed Crusher Dust	Subbase layers, leveling, and backfilling

## Stone & Aggregates

Material	Description / Use
7mm Road Stone	Asphalt and premix mixes
10mm Road Stone	Asphalt base, concrete mixes
14mm Road Stone	Concrete, drainage
20mm Road Stone	Base layer in construction
14 mm / 20mm Concrete Stone	Concrete production
20mm Builders	Concrete mixes
Gabion Stone	Gabion baskets for erosion control
Yardstone (Eskom)	Substation yards, drainage, and heavy-duty industrial surfaces.
G1-G4	High-strength road layers
G5 (-53mm)	General fill and subbase
G6	Lower road layer applications
G7	Selected fill for embankments

## PRODUCT LIST

Bricks	Qty per Pallet	Bricks/m <sup>2</sup>	Size (mm)
Maxi Bricks	192	33	296 x 140 x 96
Stock Bricks	480	55	210 x 100 x 70
Pavers	Qty per Pallet	Bricks/m <sup>2</sup>	Size (mm)
50mm Grey/Coloured Bevel Paver	588	48	220 x 110 x 50
60mm Interlock paver	504	48	220 x 110 x 60
80mm Interlock paver	378	48	220 x 110 x 80
